Re: Follow up and Petition re Demand for Hotels and/or Safe Sleeping Sites for Hayes Valley

Dear Mayor Breed, Supervisor Preston, Director Degrafinried and other concerned citizens,

As stated in a letters on June 6th and a follow up letter on July 6th, the Hayes Valley Neighborhood Association (HVNA) asked the City to open a Safe Sleeping Site at a location in or near Hayes Valley, as well as urging the City to place people experiencing homelessness into vacant hotel rooms, and pursue every humane way to address the needs of people experiencing homelessness. We demanded the City take immediate action to alleviate the unsafe and unacceptable conditions. by making hotel rooms and Safe Sleeping Site available to the unhoused no later than July 20, 2020.

We did receive a commitment from DPW this week that the Octavia encampment will be cleared by July 31st with the City offering people a place to go with services. We greatly appreciate all the resources being brought to bear to accomplish this and are hopeful it will make a big difference.

We remain concerned that the remaining encampments are growing, and more encampments may emerge, as the COVID-19 emergency continues to worsen. We therefore continue to request that the Safe Sleeping Site at 33 Gough be opened without delay, to accommodate the ongoing crisis of the unhoused. We are attaching a petition that circulated online, with over 300 signatures in support of opening hotel rooms and Safe Sleeping sites.

Safe Sleeping Sites must last for the duration of this crisis. To be successful, sites must have the following:

- Meals
- Bathrooms
- Showers
- Hand Washing Stations
- 24 hour supervision
- On Site Security
- Shade/Rain canopies
- Health Services
- Health Screenings on Entry

We are open to creating a neighborhood advisory committee. HVNA recognizes that communication with neighbors is key, which includes developing structures to facilitate dialogue for these kinds of initiatives. We expect immediate action.

Sincerely,

Craig N. Hamburg, President

To: Mayor London Breed; Supervisor Dean Preston; Board of Supervisors; Alaric Degafinried, DPW Acting Director; Department of Public Works, Jeff Kositsky, Head of Healthy Streets Operations

Hayes Valley Safe Sleeping Sites at 33 Gough Street, Performing Arts Garage, and 600 McAllister

MAYOR LONDON BREED, SUPERVISOR DEAN PRESTON, BOARD OF SUPERVISORS, ALARIC DEGAFINRIED, DPW ACTING DIRECTOR, DEPARTMENT OF PUBLIC WORKS, JEFF KOSITSKY, HEAD OF HEALTHY STREETS OPERATIONS

This petition is in support of immediately moving the unsheltered population in Hayes Valley to a location where safe social distancing is possible.

Hayes Valley Neighborhood Association (HVNA) and other concerned neighbors strongly urge the City to place people experiencing homelessness into vacant hotel rooms, and pursue every humane way to address the needs of people who are experiencing homelessness.

This petition demands that city leaders make available vacant hotel rooms for the unsheltered population on Octavia Boulevard and adjacent streets by no later than Monday, July 20. If the City is unable to make hotel rooms available by that date, we demand that the City open a Safe Sleeping Site at one of the following locations:

1. **33 Gough Street (Previously slated to be a Navigation Center)**
2. 360 Grove Street (Performing Arts Garage)
3. 600 McAllister (Opera Parking Lot)

On March 15, 2020, the City and County of San Francisco issued a sweeping shelter-in-place mandate, ordering residents to stay at home and go outside for only basic necessities. We at Hayes Valley Neighborhood Association believe this was a necessary step to preventing the spread of COVID-19.

Since that time, the City has failed to adequately address the population of unsheltered individuals who remain on our streets and sidewalks. The situation presents a grave risk to public health and safety, both to the sheltered and unsheltered populations alike.

The Board of Supervisors has twice passed legislation to move these individuals into vacant hotels, which we believe is the safest available option to allow currently unsheltered people to practice safe social distancing and get access to services and facilities.

The City has, however, not acted quickly enough to provide this service on a scale that would meaningfully provide relief nor make any difference on the streets.

In Hayes Valley, the number of tent encampments has grown massively over the past three months, in particular on Octavia Boulevard. More than 20 tents line the street, and even more on the adjacent streets and alleyways. This presents an ongoing and unacceptable threat to public health and safety.

We are demanding that elected leaders and the city must move these individuals into vacant hotel rooms by Monday, July 20. If the City is unable or unwilling to meet this demand, we demand that the City open a Safe Sleeping Site in or near the neighborhood to provide relief by Monday, July 20. Other Safe Sleeping Sites have opened around the city, proving this model works.

In January of this year, the city announced that the former City College facility at 33 Gough Street was slated to become a Navigation Center. For this reason, we believe it is a suitable location for a temporary Safe Sleeping Site.

Additionally, the Performing Arts Garage on Grove Street is property owned by the City, and we believe could be converted to accommodate encampments in the temporary Safe Sleeping Site model. Lastly, the parking lot at 600 McAllister accommodates parking for Opera employees. Given that the Opera recently announced it was cancelled its Fall schedule, we believe the property could be made available for a Safe Sleeping Site on a temporary basis.

Regardless of which avenue the city pursues, the neighborhood must get relief immediately, and no later than Monday, July 20. Every day that passes puts residents - both housed and unhoused - at greater and greater risk.

We want Safe Sleeping Sites that last for the duration of this crisis. To be successful, sites must have the following:

- Meals
- Bathrooms
- Showers
- Hand Washing Stations
- 24 hour supervision
- Shade/Rain canopies
- Health Services and Health Screenings upon Entry
- On Site Security

We, the undersigned, demand that the city make available vacant hotel rooms for the unsheltered populations in Hayes Valley no later than Monday, July 20. If unable or unwilling, the city must open a Safe Sleeping Site by that date at 33 Gough Street, 360 Grove Street, or 600 McAllister Street. The encampments on Octavia Street and the adjacent blocks must be prioritized for placement in the hotel rooms or at one of the sites

Also, we have seen the rise in crime and the stolen items in these tent camps. You claim victory in the TL of eliminating the camps, yet you've only sent them to the rest of the city, the parts that don't have a major lawsuit against the city. You rage against the blight in which you grew up in and yet you let it grown in the city you are responsible for. What's that all about???

227. Mikhail Panko (ZIP code: 94102) Tent encampments have completely closed off several sidewalks in Hayes Valley and make it harder to reach my 2 year old son's daycare as we have to go around around a block twice on our path. There are large quantities of trash and often broken bottles and needles accumulating around the encampments. An encampment on the intersection of Fulton St and Franklin St has recently added electrical cords, which might be unsafe, and is blasting loud music for large parts of the day. My wife is afraid for her and our children's safety and we are even considering moving out of the neighborhood if the situation doesn't improve.

228. jeff miller (ZIP code: 94102) Why are we not using the ample city budget accumulated from property taxes , sales taxes, soda taxes, you name it taxes, various fees and fines, and other income sources that our leaders have bilked the population out of and are somehow mismanaging and use it to deal with this issue ASAP?!? This is one of the wealthiest cities in the world but it has turned into a NY-esque 70's ghetto in our neighborhoods that were once inviting! All on Breed and Preston's watches! I am a home owner who has lived in SF for 30 years. It's time to clear out this urban blight. We need to clean SF of this contagion menace NOW!

- 258. Prithvi Nobuth** (ZIP code: 94102) This is needed ASAP. Residents can't walk on sidewalks anymore -Land resort to walking on median w dogs and kids. There are daily acts of violence and neighborhood break ins are through the roof. Several cases resulted in residents finding their belongings outside/inside the tents! Unacceptable!

- 263. Robin Levitt** (ZIP code: 94102) This is well overdue. Those of us who live near Octavia Boulevard have had it with the trash, human feces, break-ins, drug dealing, use and other sociopathic behaviors these encampments generate and attract. Plus relegating people to live on the street without even basic sanitary facilities is inhumane. How about the tents be moved next door to Supervisor Preston's house at Ida B. Wells Elementary grounds where there's plenty of space, security and access to bathrooms and showers?

- 270. Marilyn Morales** (ZIP code: 94102) I feel very unsafe with the drug dealing and drugged out folks that this encampment attracts. I avoid going out for a walk to that area because of this. Also it smells like urine when I step out my house, trash strewn around mad these blocks, I see rats running around that corner of the street where the tents are from my house. It's made what I consider my home & neighborhood no longer a place that I find peace and enjoyment. I am a native SF and this is the first time I am looking at leaving. I feel like our neighborhood has been hijacked and there is nothing we can do. It's very sad and disappointing.

- 278. Sheryl Meredith** (ZIP code: 94102) As a homeowner living along Octavia and Page, I'm unable to let my children and animals safely use the sidewalks, entrances and exits from my home. In addition to human urine and excrement, these areas are riddled with used needles, other drug apparatus, rotting food, garbage emptied from the municipal waste cans, and more. Surely, the individuals living on the street deserve better. And, as tax payers and citizens, we deserve better, too.
