Victorian Interiors is San Francisco's one-stop restoration and design service. We provide access to all of the finest products available for restoring a vintage home to it's original elegance and detail.

Our feature product is a line of authentic reproduction Victorian wallpapers --- called the Brillion Collection. These papers cover design styles popular from 1850 all the way thru 1915 and are offered in a wide variety of colors.

Other fine products include: Bradbury Art Wallpapers, William Morris Carpets and Scottish Lace panels from J.R. Burrows & Co., Embossed wall coverings, tin ceilings, Mouldings from Belgium and many other wonderful items.

We offer in-home consultation and design service for a nominal fee and can provide installation on all products we sell.

So whether you are creating an authentic period room, or simply adding decorative accents, visit our restored vintage store, where one of our knowledgeable and courteous designers can help you turn your 19th century dreams into 20th century realities.
